REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or fairly suggest a multiplication of large integer operands having a first number of bits using multi-media instructions that only support parallel multiply operations for small operands having a second number of bits, wherein the first number is at least twice as large as the second number, by positioning segments of the large integer operands into register positions used as source fields of the multi-media instructions, executing a plurality of multi-media parallel multiply instructions to form a series of partial products; and adding the partial products together to produce the integer multiplication result.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
